

Get **Free Food** and **Help** the **Environment** but HOW?

Renton Community Co-Op

That's how. We are a gleaning organization that is committed to reducing waste. We gather, share and use what would otherwise be thrown out, such as produce, bread, pastries, dairy products, and miscellaneous canned goods.

We pick up produce weekly, bread monthly or bimonthly, and other items occasionally.

We are a nonprofit organization. An annual donation of \$30 is encouraged to cover our team's operating expenses. Each member spends 3-8 hours per month, which is used to collect food from our participating stores and to divide it up for pick up, among the members of the team.

The load is light and benefits great when we act as stewards of the Earth together. Join us!
