

Dear Senator,

As the representative of a disabled people's organisation with members across 39 countries in Europe, I am urging you to please support the U.S. ratification of the CRPD **without any RUDs**. We know ratification of the CRPD can bring profound improvements to the lives of our sisters and brothers with disabilities in the US, including disabled veterans. We are looking to the U.S to continue its great global leadership in disability rights by ratifying this crucial treaty.

Please, Senator, **vote to Ratify the CRPD out of committee without any RUDs**

We strongly believe that by supporting the ratification of the CRPD, you will make not just America but the world a better place for people with disabilities. Know that the eyes of people with disabilities from around the world are on the US at the moment. It is crucial to us that the RUDs are removed.

Sincerely yours,

Debra Shulkes for the Board of the European Network of (ex-)Users and Survivors of Psychiatry (ENUSP),
