

Girl Scouts®
Where Girls Grow Strong™

Dear Walt and Cynthia,

I would like to take this time to thank you for the wonderful tour/program you presented to the girls in my Junior Girl Scout troop #91330.

The information and the way you presented it to the girls was perfect in every way. I believe that you made a horse lover out of each of them. The knowledge that you imparted to them went well beyond their badge requirements. You kept them engaged and interested in every aspect. Speaking with experience, that is not always easy to do.

You treated the girls with so much respect, even with some of their questions no matter how silly they may have seemed. By allowing them the opportunity to part-take in grooming and feeding the horses showed them that you had confidence in their abilities, and really made them feel important. There are so many things that the girls walked away with from this experience that I cannot even begin to include them in this letter. For all of that I thank you. It makes the Girls Scouts what its intended to be.

I took the liberty to mention the opportunity for your services to the other troop leaders in the Andorra, Roxborough, Manayunk and East Falls area. I have also passed the information along to the Boy Scout leaders in this area as well. You are truly a hidden gem to these programs.

Thanks Again,

Patty Toal
Troop Leader
