

Appendix Map Figure 1(A-D). Appendix Map Figure 1A. Distribution Map of the Sportive Lemurs of Madagascar (Mittermeier *et al* 1994). Note that *L. mustelinus* is located in southeastern Madagascar, and *L. microdon* is located in northeastern Madagascar. The *Lepilemur* species (?) is the proposed *L. septentrionalis* subspecies by Rumpler *et al.*, (2001). Appendix Map Figure 1B. Distribution Map of the Sportive Lemurs of Madagascar (Garbutt, 1999). Note that *L. mustelinus* is located in northeastern Madagascar, and *L. microdon* is located in southeastern Madagascar. Appendix Map Figure 1C. CAMP Madagascar 2001 - Distribution Map of the Sportive Lemurs of Madagascar – Map #1 ((Miadana Harisoa *et al.*, 2002). The stippled areas indicate possible distribution ranges for that species. The question marks indicate areas where the species is not verified. The areas stippled along with question marks for *L. mustelinus* in the northern extent of its range indicates an region of possible hybridization with *L. microdon* (Goodman and Rakotondravony 1998). Appendix Map Figure 1D. CAMP Madagascar 2001 - Distribution Map of the Sportive Lemurs of Madagascar – Map #2 ((Miadana Harisoa *et al.*, 2002). The stippled areas indicate possible distribution ranges for that species. The question marks indicate areas where the species is not verified.
