

# BECOME A MEMBER!

of Sunburst Unlimited, Inc., a nonprofit 501 (c)3

## Join our "growing" community...

"When I realized that 1/3 of the kids in our community don't know where their next meal is coming from (food insecurity) & 40% of our kids are on free or reduced lunch in the schools, I knew I had a choice to make: 1) 'Too bad, but I have my own problems' OR 2) 'As a neighbor & a parent, I must do something!' That's how Gardens from Garbage got started. Gardens from Garbage teaches composting, gardening, and works to build year-round greenhouses, so that our kids and their families have fresh, locally produced food on the table - every day."

Please join us. Mike Dalton, Executive Director

With your membership support, we can continue to create & sustain a "growing community" that will provide food security for our kids & neighbors - food that has been grown & produced locally.

### I want to become a Captain Compost Crusader and support the *Gardens from Garbage* Program
