Dear Jed,

I was unable to track down your home address and as such I will be sending you this electronic thank you note.

I would first like to thank you for your efforts in making the Butch Reimer Memorial Scholarship possible, as well as the additional scholarships for high school students. Secondly, I would like to thank you, Jill, and the selection committee for picking me as the first recipient for the Memorial Scholarship. It truly is an honor to be recognized as having similar positive qualities to Butch!

I was also in attendance for Butch's induction into the UWGB Hall of Fame, and was personally touched by your comments that day. I too feel that Butch always had something to prove and, for lack of a better phrase, never took compliments well. In some ways these were my favorite aspects of Butch's personality, perhaps because these were the qualities I could relate to so well.

As my time comes to an end here at UWGB, I know I will leave Green Bay with little idea of what the future holds. Yet, I will always remember the life lessons and experiences that I had with Butch that will no doubt help me in finding the right path to happiness, and hopefully success. In any case, I will certainly carry on Butch's memory in my thoughts and actions, and I will never forget that some of the people that knew Butch so well, could see some of his best qualities in me. So again, thank you for your efforts in this scholarship program!

Sincerely,

Jeff Cook
